3	Hedgehogs Read the following text about hedgehogs and answer the following questions. Hedgehogs can be found almost everywhere in the UK. They live in cities and towns, and can be found on railway land, parks and gardens. They do not live on mountainsides because there is not much food for them and there are not many places for them to nest. What do they look like? Hedgehogs are small, spiky animals. Their babies are called hoglets. Adult hedgehogs have long spines along their backs and sides, but not on their faces or legs. Some hedgehogs can have up to seven thousand spines! What do they eat? Hedgehogs are often called the Gardener's Friend because they eat the slugs that eat plants and cause damage to the garden. Gardeners are usually pleased to see a hedgehog. Hedgehogs 1. Where do hedgehogs not live? Tick one. cities ☐ gardens ☐ parks ☐ mountainsides ☐ 2. What are hoglets? _____ 3. Why do you think the author says you should leave a saucer of water out for the hedgehogs, 'especially in the summer months'? 5. Write a list of things you could leave out in your garden if you want a hedgehog to visit. • _____ • _____ • _____ 6. Do you think a hedgehog would make a good pet? Why?	$\frac{1}{2} \text{ of } 6 =$ $70 \div 10 =$ $65 + 29 =$ $26 - 15 =$ $8 + 7 + 5 =$ $7 \times 4 =$ $60 \div 5 =$ $\frac{1}{3} \text{ of } 18 =$	PE Time to get fit with Joe Wicks! PHSE:

In our book *THE DOT*, Vashti thought she couldn't draw, but she became an artist!

What things did you think that you can't do, but now you can?

Make a list of 3 things.

Discuss how you overcame your challenges.

Who helped you?

What did they do?

How do you feel about those things now?
