EARLY DAYS :

Although born in Iowa, William spent much of his early life in Kansas, having to find work at the age of eleven when his father died. Three years later, he was working as a rider for the Pony Express: a mail service, using a relay of horseback riders, who, in ten days, were able to deliver messages the 3000-plus miles from the Atlantic coast of America to California on the Pacific.

Between 1863 and 1865, he fought in the American Civil War. Later, during what was known as the Plains Wars between the Native Americans and the US government, he became a scout, receiving the Medal of Honour in 1872. During this time, he had hunted bison as well (also known as buffalo) to provide food for the army. This is how he got his nickname. (Later, he would claim to have had many jobs, including trapper, goldminer, wagon-master, stagecoach driver and hotel manager. No one is sure if this is true. He might have been trying to make his life sound more interesting.)

THE FIRST AMERICAN CELEBRITY :

In 1883, Cody created 'Buffalo Bill's Wild West', a circus-like show that toured the country. This massively popular attraction included sharp-shooting by Annie Oakley, another celebrity at the time; re-enactments of the Pony Express; rodeo skills; and the dramatisation of the rescue of white settlers or wagon trains under attack by Native Americans.

It is worth noting that the Native Americans he fought during the Plains Wars – the Lakota, members of the Sioux Nation – were also part of his Wild West show. As a frontier scout, he had great respect for Native Americans and supported their rights. By employing them in his show, he believed he was offering them a chance to improve their lives. He is quoted as saying: 'Every Indian outbreak that I have ever known has resulted from broken promises and broken treaties by the government.'

In 1887, Buffalo Bill brought his show to Britain in order to play in front of Queen Victoria to celebrate her Jubilee (50 years on the throne). He visited Europe several times, his final tour reaching as far as Eastern Europe as well as many towns and cities in the UK.
