

Week 2 Nursery Remote Learning Grid

Please use this remote learning grid to direct your child's learning while school is not open.

Learning activities are listed by day, with each day consisting of an English, Maths and Topic / Science activity. Activities are designed to consolidate learning that has already taken place, while also allowing children to start to think about learning that will be taking place during the summer term. There are three activities set each day. Activities should be completed in the provided remote learning book.

Within your child's home school communication book you will find your child's user and name and passwords for specific online learning resources, which are provided by the school. These resources can be used to support the learning.

Regular Reading, Mark making and Maths (At least 3 times per week)

In addition to the daily learning activities, your child should continue to practice their reading, spelling and numbers at least three times per week.

- Encourage your child to do some mark making (drawing and handwriting) to work fine motor skills.
- Using Nursery Rhymes and counting games, your child can continue to practice reciting numbers 1 – 10 and beyond.
- Your child has been provided with a school reading book, please continue to read this or an appropriate book, which you may have at home, with them.

Daily Learning Activities

Day	Literacy	Maths	Topic/ Science
