

	Autumn	Spring	Summer
Number and place value	- Count in steps of 2 and 5 from 0, and in tens from any number, forward or backward How many chicks are there? Count in threes.  - Recognise the place value of each digit in a two-digit number (tens, ones) Write down the amount the abacus shows: 	- Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward Write the missing numbers in the patterns   - Recognise the place value of each digit in a two-digit number (tens, ones)	- Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward Write the missing numbers in these sequences: 13 23 43 73 45 48 57 Fill in the missing numbers: 93 83 63 23 Count back 6 from 47? Count back 7 from 59 Count back 9 from 87? Count down in tens from 87 to 37 - Recognise the place value of each digit in a two-digit number (tens, ones) Count the number of tens and ones. Write down the number.  

- identify, represent and estimate numbers using different representations, including the number line

Look at these numbers:

37 12 45 60 72 27

Which of these numbers is the largest?
Which of these numbers is between 10 and 20?

Count the tally marks. What number is shown?

- compare and order numbers from 0 up to 100
- read and write numbers to at least 100 in numerals and in words

What numbers can you make using two of these digits: 3, 6, 0?

Which is more: 23p or 35p

Which is more: 31p or 26p

Which is less: 64p or 28p

Which is less : 61p or 29p

Write down each number you make. Read those numbers to me. Can you write the largest of the numbers in words?

Count the dots. Then fill in the missing numbers:

tens + units =

- identify, represent and estimate numbers using different representations, including the number line

Estimate numbers on the number line.

- compare and order numbers from 0 up to 100; use <, > and = signs

What number is half way between 15 and 25 ?

What number is half way between 19 and 29 ?

What number is half way between 21 and 27 ?

What number is half way between 11 and 29 ?

- read and write numbers to at least 100 in numerals and in words

- identify, represent and estimate numbers using different representations, including the number line
- compare and order numbers from 0 up to 100; use <, > and = signs

Which number line is pointing the bigger number?

Look at the squares of chocolate

There are 16 squares

Tick (✓) the sum that matches the picture

☐ $5+2+9=16$

☐ $5+6+5=16$

☐ $6+6+4=16$

☐ $6+2+8=16$

☐ $8+3+5=16$

	use place value and number facts to solve problems. Counting and writing tens and units 	- use place value and number facts to solve problems. 7 1 4 Write the lowest number. - use place value and number facts to solve problems. Holly made a number using these digit cards.  The hundreds digit is greater than 4 Holly's number is odd. What number did Holly make?	- read and write numbers to at least 100 in numerals and in words Circle the number that is closest to 300. 338 3030 288 313 130 - use place value and number facts to solve problems. Harry had 6 bundles of 10 straws and 7 single straws. How many straws did he have altogether? Write down the value of the digits underlined in the numbers below. <table><tr><td>1<u>4</u>3</td><td>2<u>6</u>4</td><td><u>3</u>77</td><td>50<u>3</u></td><td><u>6</u>25</td><td><u>7</u>25</td></tr><tr><td>8<u>1</u>4</td><td>5<u>4</u>7</td><td>88<u>1</u></td><td><u>6</u>28</td><td>70<u>3</u></td><td>89<u>9</u></td></tr></table>	1 <u>4</u> 3	2 <u>6</u> 4	<u>3</u> 77	50 <u>3</u>	<u>6</u> 25	<u>7</u> 25	8 <u>1</u> 4	5 <u>4</u> 7	88 <u>1</u>	<u>6</u> 28	70 <u>3</u>	89 <u>9</u>
1 <u>4</u> 3	2 <u>6</u> 4	<u>3</u> 77	50 <u>3</u>	<u>6</u> 25	<u>7</u> 25										
8 <u>1</u> 4	5 <u>4</u> 7	88 <u>1</u>	<u>6</u> 28	70 <u>3</u>	89 <u>9</u>										
Addition & Subtraction	- Solve problems with addition and subtraction Add 5 and 24. - Using concrete objects and pictorial representations	Solve problems with addition and subtraction What is 7 more than 43? What is the sum of 21 and 17?	- Solve problems with addition and subtraction Which two numbers can make 14? What three numbers can make 14? - Using concrete objects and pictorial representations, including those involving numbers, quantities and measures												

What subtraction sentence does the picture show?

- recall and use addition and subtraction facts to 20 fluently

Add:

$$12 + \square = 20$$

$$\square + 12 = 20$$

Subtract:

$$20 - 12 = \square$$

$$20 - \square = 12$$

- Using concrete objects and pictorial representations, including those involving numbers, quantities and measures

Which addition sentence does the picture show?

- recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100

Look at this number sentence:

$$\square + \square = 20.$$

What could the two missing numbers be?

What else?

Can you tell me all the pairs of numbers that make 20?

Estimate the length of each item before you measure.

Item	Estimate	Actual length

- recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100
- add and subtract numbers using concrete objects, pictorial representations, and mentally, including:
 - a two-digit number and ones
 - a two-digit number and tens
 - two two-digit numbers

- add and subtract numbers using concrete objects and pictorial representations

Count on and back along a number-line

Adding tens to two digit numbers:

$$\begin{aligned} 36 + 60 &= \\ 36 + 10 &= \\ 36 + 30 &= \\ 36 + 40 &= \\ 36 + 50 &= \\ 36 + 80 &= \\ 36 + 70 &= \end{aligned}$$

Subtracting:

$$\begin{aligned} 96 - 30 &= \\ 96 - 40 &= \\ 96 - 60 &= \\ 96 - 80 &= \\ 96 - 70 &= \\ 96 - 20 &= \\ 96 - 50 &= \end{aligned}$$

- show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot

Adding sums in different orders

$$23 + 49 = 72$$

$$49 + 23 = 72$$

Write in the missing digits.

$$\begin{array}{|c|c|} \hline 3 & \\ \hline \end{array} + \begin{array}{|c|c|} \hline & 5 \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline 1 & 0 & 0 \\ \hline \end{array}$$

- add and subtract numbers using concrete objects, pictorial representations, and mentally, including:
 - a two-digit number and ones
 - a two-digit number and tens
 - two two-digit numbers
 - adding three one-digit numbers

$$72 - 50 = 22$$

$$94 - 20 = 74$$

What number is 20 less than 79? What number is 20 more than 54?

- show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot

Add :

$$25 + 17 = \square$$

$$34 + \square = 100$$

$$\square + 71 = 94$$

$$\begin{array}{r} 57 \\ + 9 \\ \hline \end{array}$$

$$\begin{array}{r} 39 \\ + 46 \\ \hline \end{array}$$

$$12 + 9 + 28 = \square$$

$$24 + \square + 17 = 100$$

$$3 + 56 + \square = 99$$

subtract:

$$89 - \square = 7$$

$$\square - 15 = 74$$

$$62 - 47 = \square$$

$$\begin{array}{r} 45 \\ - 35 \\ \hline \end{array}$$

$$\begin{array}{r} 92 \\ - 17 \\ \hline \end{array}$$

$$92 - 17 - 10 = \square$$

$$\square - 23 - 27 = 50$$

If you know this:
 $87 = 100 - 13$
What other facts do you know?

- add and subtract numbers using concrete objects, pictorial representations, and mentally, including:
 - a two-digit number and ones
 - a two-digit number and tens
 - two two-digit numbers
 - adding three one-digit numbers

4 ten rods + 2 ten rods + 4 ten rods

$$40 + 20 + 40 = 100$$

Take any three numbers. Add them up. What different totals can you make?

9 5 8 7

- show that addition of two

- Recognise and use the inverse relationship between addition and subtraction

$$17 + 5 = 22$$

$$5 + 17 = 22$$

$$22 - 17 = 5$$

$$22 - 5 = 17$$

$$12 + 37 + 60 = 109$$

$$60 + 12 + 37 = 109$$

$$37 + 60 + 12 = 109$$

- Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.

$$45 + 32 = 77$$

Write the missing fact for this calculation.

Write the missing number

$$28 + \square = 75$$

$$77 - 32 = 45$$

Write the missing fact for this calculation.

Write the missing number:

$$75 - \square = 28$$

$$75 - 47 = \square$$

numbers can be done in any order (commutative) and subtraction of one number from another cannot

$$45 + 28 = 73$$

$$28 + \square = 73$$

- Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.

Can you make two addition numbers sentences and two subtraction number sentences from each of the following sets of numbers?

8 15 9 12 7 14 20 6 11

15 + 9 = 24
9 + 15 = 24
24 - 15 = 9
24 - 9 = 15

Multiplication & Division

- recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers

- Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication ($\times$), division ($\div$) and equals (=) signs

There are 3 groups of 7. How would you write this as a multiplication number sentence?

Write the multiplication number sentence shown here:

- recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers

There are 4 groups of 5 footballs.

The multiplication number sentence will be : $4 \times 5 = 20$

- Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication ($\times$), division ($\div$) and equals (=) signs

Show me 3 number facts for:

$$2 \times 5 = 10$$

Find missing numbers or symbols in a calculation:

Multi, Subby and Divvy all like peaches. Share these peaches equally between them.

- recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers

- Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication ($\times$), division ($\div$) and equals (=) signs

Anna has 3 boxes of cakes. Each box contains 5 cakes. How many cakes does she have altogether? Show how you worked this out.

Write one number from each circle to make this calculation correct.

Dan had £15. Karl had twice as much. How much did Karl have?

Ali's pencil is 5 cm long. Leo's is twice as long. How long is Leo's?

	Share these bars of chocolate between Ali and Gita. Ali  Gita   Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot	Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot	Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot Write the missing fact: $9 \times 10 = 90$ $5 \times 7 = 35$ $\times$ = $\times$ =
Fractions	recognise, find, name and write fractions $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{1}{2}$ of a shape or set of objects What fraction is this shape split into? 	recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity Which shape shows $\frac{1}{4}$?  A  B  C  D Would you rather eat half of the cupcake or half of the chocolate cake?	recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity What fraction is shaded ? What fraction is unshaded?    

	write simple fractions e.g. $\frac{1}{2}$ of 6 = 3  $\frac{1}{4} = \frac{1}{4} = \frac{1}{4}$	 write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of two quarters and one half Look at these fractions. Circle the two fractions that are equal. $\frac{1}{2}$ $\frac{1}{3}$ $\frac{2}{4}$ $\frac{3}{4}$	write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of two quarters and one half Shade in half of shape A. A B Shade in five tenths of shape B What do you notice?
Measurement	- choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); capacity (litres/ml) Which is a better estimate for the length of a bed? A) 2 metres B) 2 centimetres - compare and order lengths, mass, volume/capacity and record the results using >, < and =	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) using rulers, scales, thermometers and measuring vessels What is the length of the longest line to the nearest whole centimetre?	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels

Compare the mass of the animals. Write $>$ or $<$ or $=$ in each box to make the statement correct.

Cheetah 69 kg

Lion 89 kg

Tiger 89 kg

Cheetah's mass Lion's mass

Tiger's mass Lion's mass

- recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value
- compare and sequence intervals of time tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times know the number of minutes in an hour and the number of hours in a day

Match times to everyday events, e.g. match some pictures of daily events to some given clock faces showing their typical times.

Compare times, e.g. sort some given times into a sequence from earliest to latest and draw hands onto corresponding clock faces

- compare and order lengths, mass, volume/capacity and record the results using $>$, $<$ and $=$

Look at the jugs below. Write $=$ or $>$ or $<$ to make the statement true:

- recognise and use symbols for pounds (£) and pence (p); combine amounts to make a

What is the temperature?

A box of strawberries weighs 200 grams How much do two boxes weigh?

You have 10 litres of water. How many 2 litre jugs can you fill?

- compare and order lengths, mass, volume/capacity and record the results using $>$, $<$ and $=$

Megan and Jack are growing beans. Megan's plant is 25 cm tall. Jack's is 38 cm tall. Whose plant is the taller? By how much? Can you compare them using $>$ or $<$?

- recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value find different combinations of coins that equal the same amounts of money

		particular value find different combinations of coins that equal the same amounts of money Harry has the same amount of money but has six coins. What are they? How many different answers are there? compare and sequence intervals of time tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times know the number of minutes in an hour and the number of hours in a day I went out for a walk at half past 3 and walked for quarter of an hour. Show me on these two clock faces what time I started and what time I would then have finished.	How do you make 4 pounds and 71 pence using the fewest coins? compare and sequence intervals of time tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times know the number of minutes in an hour and the number of hours in a day
Geometry: properties of shapes	- identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line What shape is this ?  What shape is this?  - identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line	- identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line - identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces I have 6 flat faces, four of them are rectangles and two of them are squares I have 12 straight edges and 8 corners.  I am a cuboid.

What shape am I?

I have no flat faces.
I have no straight edges.
I have just one curved face.

- identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]
- compare and sort common 2-D and 3-D shapes and everyday objects.

How many ways can you find to sort the cards?

Can you see any cards that are the same as other cards?

Find shapes that have:

- a) Six sides.
- b) No corners.
- c) Four angles.
- d) Long sides and short sides.
- e) No straight sides.
- f) One curved edge.
- g) Five corners and five straight sides.
- h) Eight sides.
- i) Big angles.
- j) Sharp angles.

- identify and describe the

Which figure can you trace to make this shape?

A

B

C

properties of 3-D shapes,
including the number of edges,
vertices and faces

- identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]
- compare and sort common 2-D and 3-D shapes and everyday objects.

- identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]
- compare and sort common 2-D and 3-D shapes and everyday objects.

Shade in the 2D shapes yellow and the 3D shapes green.

		Which item is shaped like a cylinder?  A B C	
Geometry: position, direction and movement	- Order and arrange combinations of mathematical objects in patterns What comes next?  - use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).	- Order and arrange combinations of mathematical objects in patterns Look at this pattern.  How would you show this pattern using letters? ABB ABC AB - use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).	- Order and arrange combinations of mathematical objects in patterns - use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).

Point to shapes which are:

- a) Lower than the square.
- b) To the right of the hexagon.
- c) Below the triangle.
- d) Nearest to the circle.

Statistics

- Interpret and construct simple pictograms, tally charts, block diagrams and simple tables

Can you make a list of animals with four legs?

Can you make a list of animals with two legs?

- Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity

Favorite Pets		
Pet	Tally Marks	Number
		10
		4
	I	6

How many people chose cats as their favourite pet?

- Ask and answer simple questions

- Interpret and construct simple pictograms, tally charts, block diagrams and simple tables

Omar saw the following balls at the sporting goods store:

A

Balls			
How many?	4	7	9

He decided to count how many of each ball there were, so he made a table of the balls. Which is his table? A or B

B

Balls			
How many?	7	4	9

- Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity

colour of car	tally	frequency
red	I	11
blue		5
green		8
black		4
white	I	1
other	II	7
total		36

What do you think this table shows?
How many people drive a red car?

- Interpret and construct simple pictograms, tally charts, block diagrams and simple tables

- Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity

Children were asked to state how many pets they own. From the tally chart, what are the values of x, y and z?

Number of pets	Tally	Frequency
0		3
1		x
2		y
3		z
4		4
More than 4		6

- Ask and answer simple questions about totalling and comparing categorical data

about totalling and comparing categorical data

- Ask and answer simple questions about totalling and comparing categorical data

- How many of the children have four brothers and sisters?
- How many children have two brothers and sisters?
- How many of class 2G do not have any brothers or sisters?
- How many more children have one brother or sister than have three?
- How many children altogether have more than three brothers and sisters?
- How many brothers and sisters would you like?

Graph of pets
This graph shows how many children in 2T have these pets.

Ask children to discuss in pairs and write questions relate to this graph.

Problem solving

Choose any nine consecutive numbers. Put them in a 3×3 square. Here is an example:

3	4	5
6	7	8
9	10	11

Now add the diagonals and the middle line.

What do you notice?

$$6 + 7 + 8 =$$

$$3 + 7 + 11 =$$

$$9 + 7 + 5 =$$

Does this work for other 3×3 squares with consecutive numbers in?

What other patterns can you find in this square? What about the middle line adding downwards?
